To Whom It May Concern,

Nicole Kuiken was a student library aide one period a day at the Borah High Library during the 2009 spring semester. She was an invaluable addition to our staff!

Nicole constantly made herself useful doing mail, cleaning, shelving and processing of books. She went above and beyond in assisting teachers and students to locate information, both print and online. She put her personal stamp on the library with her creative and lovely book displays and signage. Nicole moved our library forward with her larger concern for the facility and Borah students by spearheading a new student book club. She led discussions and was an avid reader and advocate for all readers. Nicole returned after graduation as a volunteer to help with end of the year closing tasks and assisted me in organizing data for our 4th quarter Library report.

Please consider her carefully for any library media center or library related positions in the future. She is a well-rounded joyful person who pays careful attention to detail. Nicole would be a wonderful and trusted employee in any setting.

Thank you,

Jennifer Boyd
Borah High School Librarian
